

WL7 Firewall™ Features and Benefits

Firewall™ UV Purification

Firewall proprietary technology purifies outgoing water at the point-of-dispense. Firewall keeps the dispense nozzle free from external contamination as well as purifying the outgoing water, making the safest water possible every single dispense.

Cold, Ambient, Hot, Extra Hot and Sparkling Water Options

Cold and hot water temperature set points are programmable to meet a wide range of customer demands. High Capacity 4.5 Liter Ice Bath, 0.5 Liter Sparkling Chamber, and 1.5 Liter Hot Tank.

Premium Sparkling Water

Premium Sparkling Water produced in a stainless-steel carbonator with optimized *technology*.

High Capacity Cold Water Featuring Ice Bank Technology

Ice Bank Technology provides limitless cold water capacity. A stainless-steel drinking water coil and exclusive circulation system improves thermal dynamic efficiency.

BioCote® Anti-Microbial Protection

Certain plastic, silicon, and painted surfaces surrounding the dispensing areas and drip tray are infused with an exclusive additive called BioCote®. BioCote® provides an effective barrier against microbes like bacteria and mold, which may cause odors or staining.

Large Pass-Through Dispense Area with Recessed Sanitary Faucet

10.75 inch dispense height, large removable BioCote® drip tray, back lighting in dispense area.

Leak Prevention

Extra inlet solenoid with timer provides redundant protection and reduces accident potential.

Customizable Programming

Settings for optimizing each **WL7 FW** include; Hot Temp Set Point, Extra Hot Temp Set Point, Filter Timer, Energy Saver (Heater Sleep) Mode, and Bottles Saved Counter.

Child Safeguard

Hot Water warning screen during selection followed by main dispense prevents accidental use. Screen automatically defaults back to cold selection to prevent accidental dispensing of hot water.

Intuitive User Interface with Bottles Saved Counter

State of the art user controls with on screen reminder for constant messaging of plastic bottles saved.

Advanced LCD Screen with Auxiliary Messaging

Brilliant 5" color display with interactive interface and programmable marketing messaging.

Speedy Care – Maintenance and Service System.

Smart design with quick access to all consumables through hinged front door. Quick Release Hot Tank System and improved serviceability with convenient side panel access.

Energy Saving Sleep Mode

Energy saving sleep mode can be programmed to turn off heater after 3 hours of inactivity yielding significant energy savings when unit is not in use.

INNOVATIVE USER DESIGN

Expanded 10-3/4" dispense height to accommodate large water vessels.

New 5", full color display shows status, selections, and marketing messages.

Intuitive dispense location with stylish back light feature to guide and illuminate dispense area.

Convenient pass-through design allows for easy access to dispense area.

Large capacity drip tray features BioCote protections, removable grill, hidden well, optional drain port and front overflow edge

EXCLUSIVE FIREWALL™ PURIFICATION SYSTEM

Our breakthrough *Firewall™* technology delivers 99.9999% bacteria free water right at the point of dispense. *Firewall™* delivers the safest water possible right to your cup through a sanitary faucet.

The Firewall component is certified to NSF/ANSI-55 Class A and NSF/P231.

HIGH EFFICIENCY ICE BANK COOLING SYSTEM

All new perfectly optimized carbonation system design.

Proprietary circulation system to keep your water near freezing at all times.
